Thursday, September 5, 2013 in Raleigh, North Carolina with the following members present:

Invocation

The invocation was offered by Board Member Grannis.

Approval – Minutes of the August 7, 2013 Board Meeting

The minutes of the August 7, 2013 Board of Transportation meeting were unanimously approved upon a motion by Board Member Palermo, which was seconded by Board Member Smith.

Ethics Statement

Chairman Curran read the Ethics Statement advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

Secretary's Remarks

Secretary Tata opened his remarks by welcoming everyone to Raleigh. He announced that the Governor's Highway Safety Program completed its annual "Booze It & Lost It" Labor Day campaign, which ran from August 16 - September 2. Secretary Tata thanked all the law enforcement agencies across the state who assisted in keeping the roadways safe for everyone.

The Secretary noted that NCDOT hosted the Southeastern Association of State Highway Transportation Officials (SASHTO) annual conference in Asheville. The 13 states in the group take turns hosting the conference, which is paid for by sponsors, vendors, and registration fees. Everyone was impressed by the caliber and excellence of the technical sessions, and there were numerous compliments throughout the conference.

The theme of the conference was "Transportation. The Driving Force of a Strong Economy." The conference provided an opportunity to network with other states and share best practices in supporting economic growth. Governor Pat McCrory, Commerce Secretary Sharon Decker, and Department of Environment and Natural Resources Secretary John Skvarla, joined Secretary Tony Tata in a roundtable discussion about the importance of collaboration and how working cross-agency will improve all aspects of the state. A portion of the proceeds from the conference helped support education by funding the completion of a mural at Hall Fletcher Elementary School, one of the most challenged schools in Asheville, with more than 80% of students qualifying for free or reduced lunch. Also, SASHTO is providing \$195,000 in scholarship funds this year for students majoring in civil engineering or environmental studies, \$15,000 of which goes to students in North Carolina.

Secretary Tata thanked the Conference Committee and other employees who worked for months to make the conference a success. He presented Missy Pair, Calvin Leggett, Burt Tasaico, Renee Roach, Terry Gibson, and Sandy Nance with the Department's Extra Mile Award.

During the conference, the Department received an America's Transportation Award for the Triangle Expressway, North Carolina's first modern toll road. The award recognized the Best Use of Innovation on a large project. The project is one of the nation's first to utilize all-electronic tolling, and

thanks to agreements established with other states, motorists can now pay their tolls with NC Quick Pass, E-Z Pass or SunPass, as well as through the mail if they don't have a transponder.

Secretary Tata announced that the Department kicked off a new initiative last month to provide reduced rates for current service members and their spouses to attend commercial truck driving courses on post at Fort Bragg. Classes are being taught by faculty from the Johnston Community College Truck Driver Training Division, the oldest truck driver training school in the nation. Trucks are being supplied by member companies in the North Carolina Trucking Association. This is a great service that can be provided to military members to help them obtain their CDL's and open the door for high-demand jobs in the trucking industry.

The Secretary stated the Department has been taking steps to remind drivers about the importance of school bus safety and remind everyone that it's dangerous and illegal to pass a stopped school bus. Four students were killed last year in North Carolina walking to and from the school bus. The Bicycle and Pedestrian Division and the Safe Routes to School Program have worked with N.C. State's Institute for Transportation Research and Education (ITRE), to develop a new, free curriculum called "Let's Go NC!" that educates elementary school-aged children on the basics of walking and biking safety. It can be used by anyone, including schools, clubs, afterschool programs, law enforcement, and other groups.

Secretary Tata updated the Board on the U.S. 64 widening design and wildlife crossings. The Department presented a proposed design to widen U.S. 64 through Dare and Tyrrell counties from two lanes to four, including a new four-lane bridge over the Alligator River. The design includes numerous wildlife crossings and also fences to direct wildlife to the crossings. The Department plans to create and restore approximately twice the number of wetlands that will be impacted by the project. U.S. 64 is the main route for many to the Outer Banks, and the Department is looking forward to the ways this project will improve mobility and connectivity for the region while balancing the needs of the surrounding environment. The project would be completed using the design-build method and is estimated to cost about \$392 million. A schedule will be determined based on how the project ranks under the new Strategic Mobility Formula.

Strategic Planning – Methodology

Susan Pullium, Director of the Strategic Planning Office, provided a presentation on the 25 Year Transportation Infrastructure Plan.

Division 2 Update

Board Member Hugh Overholt shared the concerns and challenges in the eight counties that represent Division Two.

Approval of Agenda

A motion was made by Board Member Perkins, seconded by Board Member Brown, to approve the agenda items with corrections and handouts, excluding agenda items C, D, E, H and L, as they are consent items and require no Board action.

Board Member Collett abstained from voting on all projects.
